Earnings Per Share

The following table shows the computation of basic and diluted earnings per share for the three- and six-month periods ended March 29, 2025 and March 30, 2024 (net income in millions and shares in thousands):

|                                                 | Three Months Ended |                   | Six Months Ended  |                   |
|-------------------------------------------------|--------------------|-------------------|-------------------|-------------------|
|                                                 | March 29,<br>2025  | March 30,<br>2024 | March 29,<br>2025 | March 30,<br>2024 |
| Numerator:                                      |                    |                   |                   |                   |
| Net income                                      | \$ 24,780          | \$ 23,636         | \$ 61,110         | \$ 57,552         |
| Denominator:                                    |                    |                   |                   |                   |
| Weighted-average<br>basic shares<br>outstanding | 14,994,082         | 15,405,856        | 15,037,903        | 15,457,810        |
| Effect of dilutive<br>share-based<br>awards     | 62,051             | 58,853            | 65,596            | 62,865            |
| Weighted-average<br>diluted shares              | 15,056,133         | 15,464,709        | 15,103,499        | 15,520,675        |
| Basic earnings per<br>share                     |                    |                   |                   |                   |
|                                                 | \$ 1.65            | \$ 1.53           | \$ 4.06           | \$ 3.72           |
| Diluted earnings per<br>share                   |                    |                   |                   |                   |
|                                                 | \$ 1.65            | \$ 1.53           | \$ 4.05           | \$ 3.71           |
