During fiscal 2024, our management approved, committed to and restructure and further improve efficiencies in our operations, acquisitions and certain other operational activities (2024 Restructuring Plan). The total estimated restructuring costs associated with the 2024 Restructuring Plan are up to \$635 million and will be recorded to the restructuring expense within our condensed consolidated statements of operations as incurred through the end of the plan. We recorded \$76 million of restructuring expenses in connection with the 2024 Restructuring Plan for the three months ended August 31, 2024 and 2023, respectively. Our estimates of executing the 2024 Restructuring Plan will be refined as the results of operations.

⁽¹⁾ Restructuring costs recorded to each of the operating segments presented primarily severance costs. Other restructuring costs represented employee severance costs for certain other segments and certain other restructuring plan costs.

⁽²⁾ As of August 31, 2024 and May 31, 2024, substantially all restructuring liabilities were recorded to other current liabilities within our condensed consolidated balance sheets.

⁽³⁾ Costs recorded for the respective restructuring plans during the period presented.

⁽⁴⁾ All plan adjustments were changes in estimates whereby increases and decreases were recorded to operating expenses in the period of adjustments.

⁽⁵⁾ Represents foreign currency translation and certain other non-cash adjustments.

⁽⁶⁾ Other restructuring plans presented in the tables above included condensed information for certain plans and other plans associated with certain of our acquisitions whereby we continue to settle obligations under these plans during the periods presented but for which the impact on our condensed consolidated statements of operations was not significant.
